Children in the protection center are learning to keep their environment clean and learning to garden. They are actively involved in picking up trash and gardening.

We teach middle and high school children keyboard and they regularly come to the library and practice on the keyboards.

## how to type with 10 fingers on the computer

We taught students how to make paper crafts and they made roses, birds, and bookmarks. After they were done, they decided to give them to their teachers as a gift.
